THE CONTENTS OF THE PARTS AND THE DATES OF APPEARANCE OF SEITZ' *GROSSSCHMETTERLINGE DER ERDE* (THE MACROLEPIDOPTERA OF THE WORLD), LIEFERUNGEN 1 TO 130 PALAEARCTIC AND 1 TO 575 EXOTIC. VOLS. 1 TO 16, 1907–1935

By Francis J. Griffin, A.L.A.

(*Registrar, Royal Entomological Society of London.*)

[Read 20th November, 1935.]

It is known to every user of Seitz' great work on the Macrolepidoptera that the volumes were published in parts (Lieferungen) usually containing 8 pages of text and 2 plates and, moreover, that the work is published in German and English editions. I understand from Prof. Seitz that publication of a French edition was commenced but that it is no longer produced under his editorship.

It is not easy to believe that although this work only began to appear so recently as 1907 it is already a matter of the greatest difficulty to assign even an approximate date to any given part, and in many instances quite impossible.

To systematic entomologists this state of affairs has long been a cause of inconvenience and in an attempt to improve matters I commenced to gather information so long ago as 1928. For a long time I made little progress until recently, being pressed by interested persons to give dates to some of the volumes, I decided to make a final attempt to produce a working basis. That I have so far succeeded is due in very large degree to the assistance of my friends and acquaintances.

The paper here offered is, I consider, the nearest approximation to the truth that can be arrived at without access to the records of the publishers. It is needless to add that this information has not been available to me. The paper gives the contents of the parts of Seitz' in the order in which they appeared and with a date appended to each part. This date is the most reliable date I can offer as to the date of publication. For the German edition—usually, but not always as will be seen, the substantive edition which should be quoted for purposes requiring priority of publication *—I have given the dates of receipt of the copy purchased for the National Library and preserved in the Department of Entomology in the British Museum. To the authorities of this Museum I tender my best thanks for the assistance they have given me. The contents of the parts of this edition were supplied to me some years ago by Herr J. R. Loewe of the well-known firm of R. Friedländer & Sohn, Berlin. This list was checked and agreed with the contents of the parts as listed on the wrappers of the copy referred to above and for this, as for much assistance in bibliographical matters in general, I sincerely thank Herr Loewe.

Mr. H. W. England of the British Museum also kindly assisted me in recovering the dates of receipt of the parts of this edition. For the English edition I deeply regret that I am unable to offer such conclusive results to my inquiries. For a long time I was quite unable to discover the contents of several hundred parts, and that I eventually did so is due entirely to the ready help of Mr. F. Mette of Messrs. Watkins and Doncaster, whom I thank here. In

* Messrs. Kernen, the publishers, state *in litt.* 25.ix.35. "Wie bemerkt ist die englische Ausgabe stets nach der deutschen erschienen, nur bei den von Herrn Prout verfassten Spannerbänden geht die englische Ausgabe als Original voraus. . . ."

addition I received very ready help from Lt.-Col. H. D. Peile, I.M.S., who went to much trouble to send me a list of parts with their contents, Mr. Francis Hemming, C.B.E., Fleet Paymaster T. Bainbrigge Fletcher, R.N., and many others, to each of whom I acknowledge, with sincere thanks, his assistance.

To the casual reader it may appear that the present work is unnecessary in view of the appearance of a printed date at the top left-hand corner of each sheet of Seitz.* It is difficult to mention this without making criticism, I therefore content myself with stating the following facts.

(1) In the English edition Lieferung 530 contained :—

Vol. 8, pp. 9–24 and plate 3.
Pp. 9–16 are dated 17.vi.1932.
Pp. 17–24 are dated 23.v.1932.

The part containing these pages was received by the Society on 11.vii.32.

(2) Lieferung 540 of the same edition contained :—

Vol. 8, pp. 41–56 and plate 2.
Pp. 41–48 are dated 31.viii.1932.
Pp. 49–56 are dated 7.xii.1932.

The part containing these pages was received by the Society on 20.i.1933.

(3) Lieferung 556 of the same edition contained :—

Vol. 12, pp. 77–92; 109–116 dated 16.viii.33.

The part containing these pages was received by the Society on 23.ii.34.

Needless to add the Society's copy is received direct from the publishers under a standing order.

I make no comment on these facts other than to point out the great necessity of subscribers keeping careful records of all works issued in parts. The absence of full data for the earlier parts of the English edition is due to the unfortunate fact that I am unable to obtain the information lacking.

The paper is arranged in 2 parts. The first lists the Lieferungen with their contents and the date of reception at the British Museum, for the German edition, and at the Royal Entomological Society of London, for the English edition. The second part is arranged by volumes and lists the Lieferungen in which the pages were published and the dates of receipt as in the first part.
